1 · Executive Rate Summary

DORM LEAD-IN ADR ₹491 ₹458–₹918	DORM PRICE INDEX 82 vs band median ₹599	ROOM LEAD-IN ADR ₹2,176 ₹1,700–₹2,975	ROOM PRICE INDEX 102 rank 10/16 in band	MARKET MEDIAN ₹3,589 56 competitors
MARKET SPREAD 75.7× ₹502 – ₹38,000				

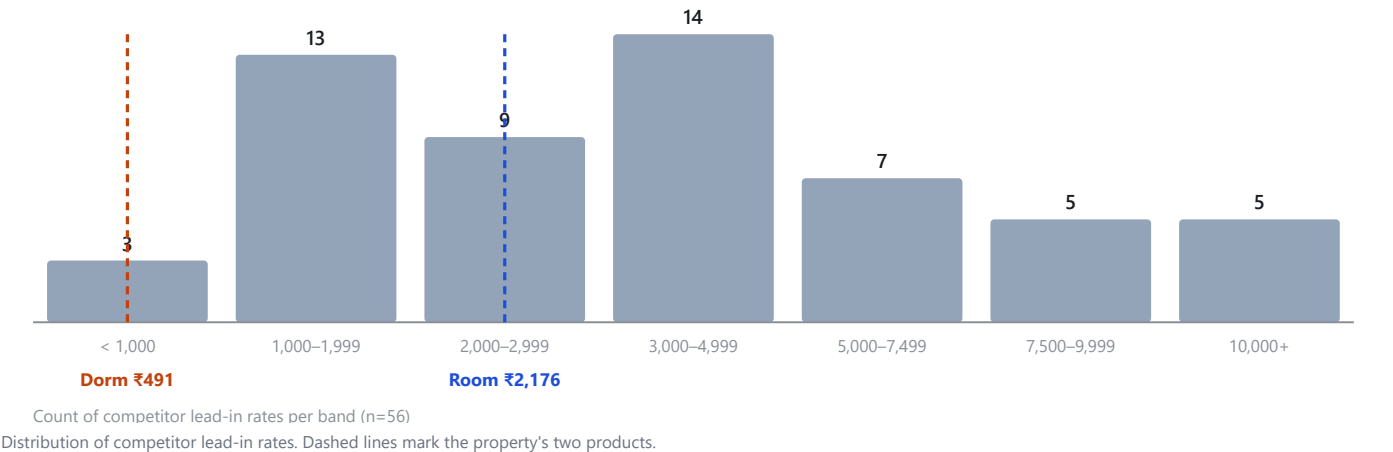

The property sells two products whose rates differ by **4.43×**, so they occupy different positions in the market and are assessed separately throughout. Every comparison uses a **lead-in rate** — the cheapest available room per night — on a single normalised basis.

Dorm — the price floor. At ₹491 the dorm is the **cheapest rate in its band** (rank 1 of 3), index 82 against a band median of ₹599. Reaching parity with Craft Hostels is **+₹108/night (+22%)**, and the ladder is empty from ₹620 to ₹1,069 (+72%), so a move up meets no competitor.

Room — at parity. Index 102 against a band median of ₹2,127, ranked 10 of 16. 4 competitors sit within ±6% of the current rate. There is no broad rate headroom — the opportunity here is date-selective, not across the board.

2 · Market Rate Structure

LOWEST RATE ₹502	LOWER QUARTILE ₹1,612	MEDIAN ₹3,589	UPPER QUARTILE ₹5,850	HIGHEST RATE ₹38,000
IQR ₹4,238 Q3 – Q1				

Why whole-market comparison is rejected. At a **75.7×** spread (CV 1.15) this set runs from beach hostels to city luxury hotels. Measured against all 56 competitors the dorm indexes 14 — an artefact of range, not a finding. All positioning in this report therefore uses a ±40% competitive band around each product's own rate.

3 · Price Positioning — Dorm Bed

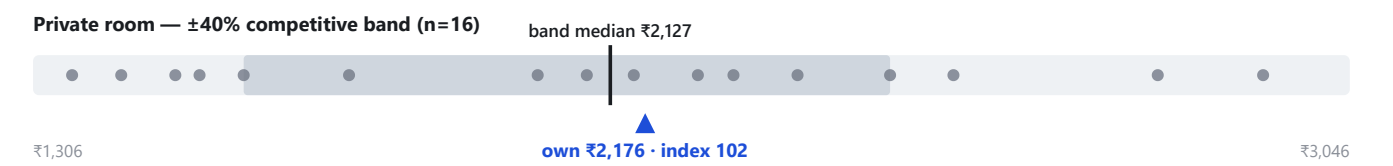

COMPETITOR	LEAD-IN RATE	30-NIGHT MEAN	VS OWN
Backspace Anjuna Beach — dorm	₹491	₹491	—
The Beachside Hostel	₹502	₹651	+2%
Craft Hostels	₹599	₹622	+22%

Parity — Craft Hostels	₹599	+₹108	+22%
Parity — La GoYa at Anjuna Beachside	₹620	+₹129	+26%

Uplift is stated per room-night. This project holds no occupancy or booking data, so total revenue impact is not calculable and is deliberately not asserted.

Dense band, minimal pricing power. 16 competitors price within ±40% of this room, 4 of them within ±6%. Rate moves here are highly substitutable.

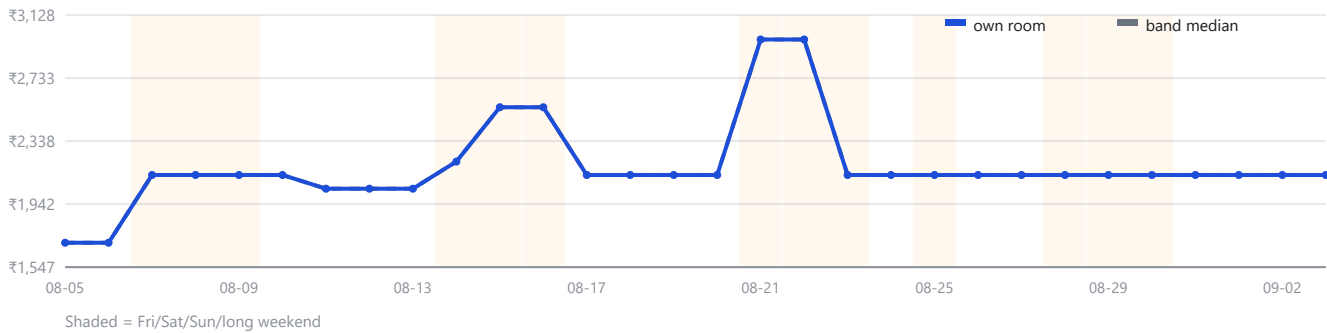

5 · Rate Trends Over the Booking Window

Night-by-night comparison needs a full 30-night curve per competitor. 4 of 56 priced competitors currently carry one, so the trend comparisons below run against those 4 — the tracked competitor set — while sections 2–4 use all 56 market rates.

Dorm lead-in vs tracked-competitor median (n=3), night by night

Private room lead-in, night by night

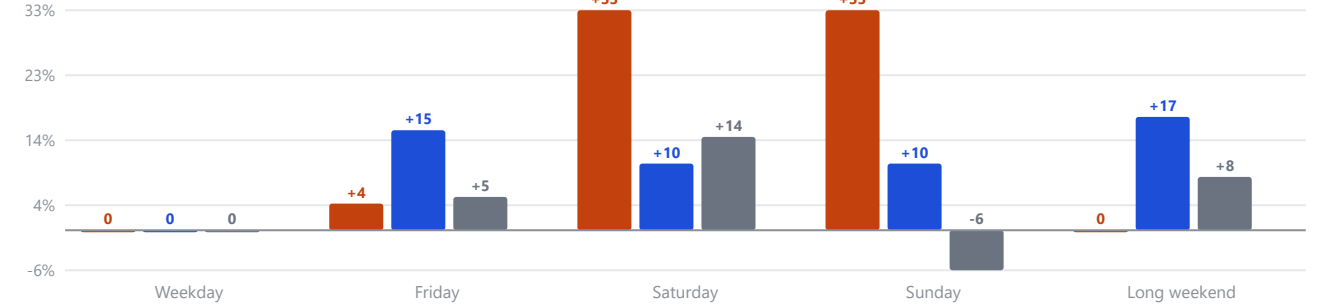

No comparison line for the room. None of the 16 competitors in the room's price band currently has a 30-night curve, so only the property's own rate movement is shown. Link some of those competitors and re-run refresh.js to enable the comparison.

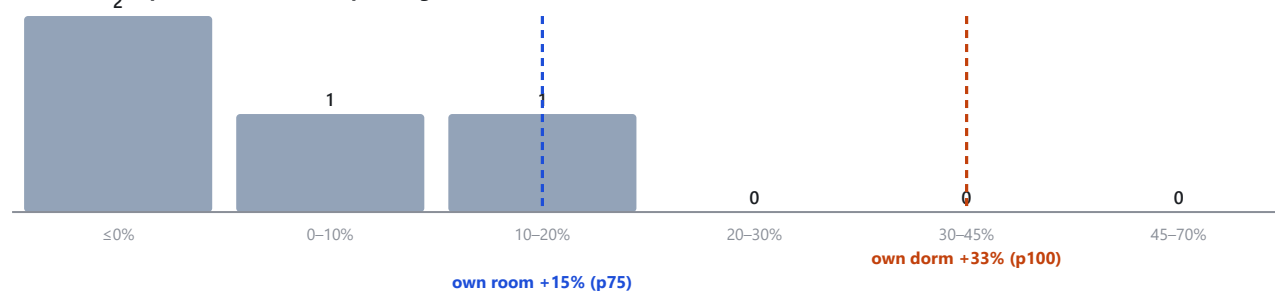

RATE BY NIGHT TYPE

Long weekend	₹458	0%	₹2,408	+17%	₹738	+8%

Rate premium vs own weekday base (%)

How hard competitors flex rates on peak nights (n=4)

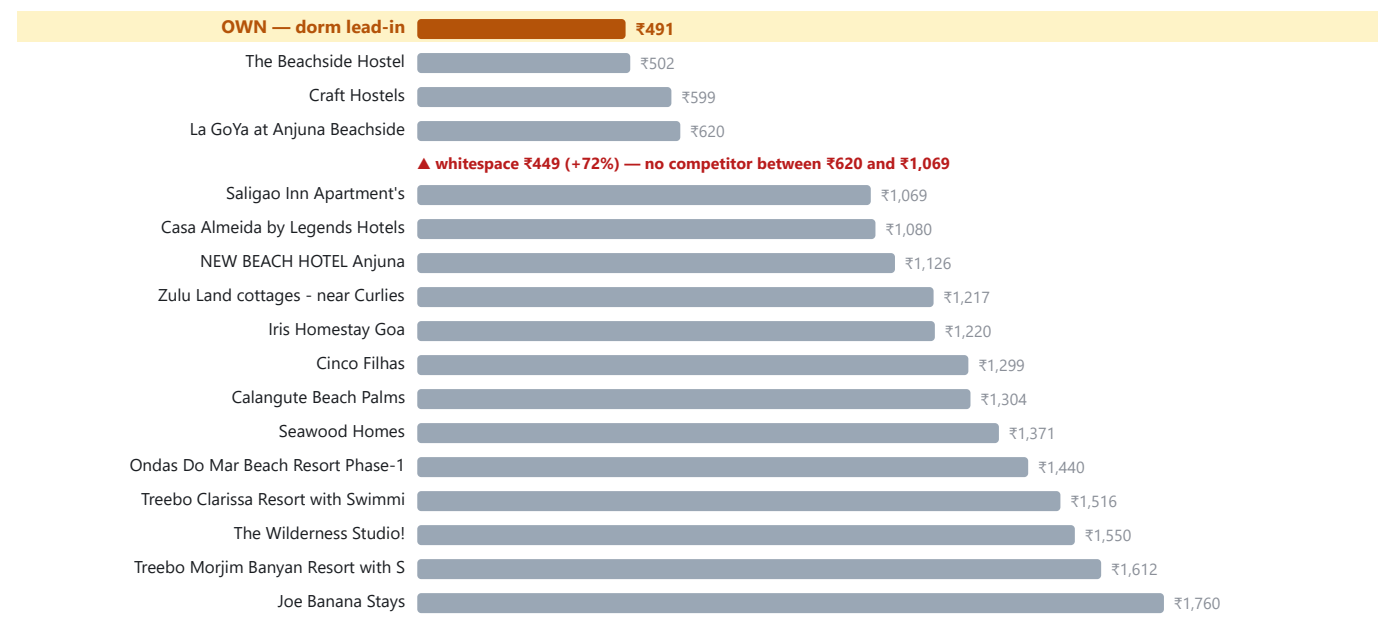

Peer peak-night premium distribution — p25 -6%, median -3%, p75 17%, max 17%.

This property is not pricing flat. The dorm's Saturday premium of +33% sits at the **100th percentile** of competitors, and the room's Friday premium of +15% at the 75th. Rate flex capability is already present and above market norm.

6 · Rate Opportunities

1 · Reprice the dorm — largest single gain. +₹108/night (+22%) reaches Craft Hostels parity; +₹129 (+26%) reaches La GoYa. At either level it stays the cheapest or joint-cheapest rate in its band, and the ₹449 (+72%) whitespace above ₹620 means no competitor is encountered.

Budget rate ladder (≤ ₹2,000) — own dorm marked

2 · Capture the dates the market is already lifting. On 5 nights the market median rises ≥4% above its own base while this room sits at or below its ADR: 2026-08-28, 2026-08-29, 2026-09-01, 2026-09-02, 2026-09-03.

3 · Apply the dorm's flex to every peak date, not one weekend. The dorm reaches +87% on its strongest night, yet sits below its own ADR on 8 of the 10 highest market-escalation dates. The capability exists; the calendar coverage does not.

HIGHEST RATE-ESCALATION NIGHTS (TRACKED COMPETITORS)

2026-08-14	Friday	₹723	+6%	+9%	+2%
2026-08-19	Weekday	₹683	0%	-7%	-2%

Demand here is inferred purely from competitor rate movement — the dates on which the market raises its own median. No availability or occupancy input is used.

7 · Rate Risks

- 1 · **No floor beneath the dorm.** At ₹491 nothing in the band is priced lower; the nearest competitor is ₹502, just +2% away. Any undercut leaves no room to respond and converts the rate into a loss-leading position.
- 2 · **The room sits in a crowded band.** 16 competitors within ±40% and 4 within ±6% means rate is not a defensible differentiator at the current level.
- 3 · **Dorm rate movement reads as inconsistent.** CV 0.23 (100th percentile of competitors) but concentrated on a single weekend rather than tracking market escalation dates — volatility without a visible calendar rule.
