The property sells a single rate product (One-Bedroom Apartment), so it holds one position in the market. Every comparison uses a **lead-in rate** — the cheapest available room per night — on a single normalised basis.

**Unit — above the band.** Index 127 against a band median of ₹2,606, ranked 31 of 51. 3 competitors sit within ±6% of the current rate. Holding a premium at this level needs the date-by-date evidence in sections 4–6.

**Why whole-market comparison is rejected.** At a **39.66× spread** (CV 0.99) this set spans very different product classes. Measured against all 94 competitors the unit indexes 110 — an artefact of range, not a finding. All positioning in this report therefore uses a ±40% competitive band around each product's own rate.

Rate ladder up to ₹5,293 — own lead-in marked

**2 · Capture the dates the market is already lifting.** On 4 nights the market median rises ≥4% above its own base while this unit sits at or below its ADR: 2026-08-23, 2026-08-26, 2026-08-27, 2026-08-30.

**3 · Apply the unit's flex to every peak date, not one weekend.** The unit reaches +4% on its strongest night, yet sits below its own ADR on 3 of the 10 highest market-escalation dates. The capability exists; the calendar coverage does not.

Demand here is inferred purely from competitor rate movement — the dates on which the market raises its own median. No availability or occupancy input is used.

6 · Rate Risks

- 1 · **Thin floor beneath the unit.** The nearest cheaper competitor is Bliss By Stays,Calangute at ₹3,240, 2% below this rate, and the nearest above is The Velvet Pallette - Studio Apartment wi at ₹3,375 (+2%). That leaves very little room to respond to an undercut.
- 2 · **The unit sits in a crowded band.** 50 competitors within ±40% and 3 within ±6% means rate is not a defensible differentiator at the current level.
- 3 · **Unit rate movement.** CV 0.15 (33th percentile of competitors) across the window, peaking at +4% over weekday. That is in line with or below peer volatility.
